Disclaimer

This financial planning analysis ("Analysis") contained herein is hypothetical in nature and provided for informational purposes to illustrate certain financial and estate planning ideas and concepts based on information provided and reviewed by you.

Data and Assumptions

This Analysis is based upon holdings, transactions, prices, performance, and/or assumptions ("Data") provided by LPL Financial LLC ("LPL"), third parties, and/or you. Data shown in this Analysis is obtained from sources that LPL considers reliable but LPL cannot guarantee that such data reflects all of your holdings or transactions, or details about their costs or returns. In addition, there may be variations in the Data because Data providers may implement different calculation methodologies. To the extent that this Analysis includes personal assets that the firm does not hold on your behalf (e.g., collectibles, real estate, intangible assets/intellectual property, checking and savings accounts, business ownership interests, insurance, personal property, etc.), the value of such assets has not been verified by LPL and is included for informational purposes only. You should review and confirm the completeness and accuracy of all values before relying on this Analysis. Furthermore, you should review and confirm the completeness and accuracy of all Data on a frequent basis to ensure the results provided herein remain accurate given any changes that may occur in your financial and personal situation. Small changes in assumptions can have significant impacts on the outcome of this Analysis, and inaccurate representations by you of any Data may invalidate results provided in this Analysis.

Assets listed on this Analysis may not be covered by FDIC or SIPC. Questions about coverage that may apply should be directed to the asset provider or sponsor.

Performance

Performance results presented in this Analysis are based on assumptions and may not reflect actual results due to factors beyond the scope of this Analysis. Investment returns set forth in this Analysis are based on asset class rather than individual performance of a particular investment. Projected valuations and/or rates of return may not take into account surrender charges on products you might own, deduction of commissions, fees, and other charges, which can result in a lower rate of return. Additionally, proposed asset allocation, performance results, and assumptions presented in this Analysis may be based on your answers to questions designed to determine your individual risk tolerance. You are responsible for confirming the answers you provided accurately represent your risk tolerance.

Depending on your answers, performance results in this Analysis may be more aggressive than your current allocation mix and return rates may be overstated. Your assets may lose value including a portion or all of your initial investment. Data used to provide performance projections is historical, and past performance is no guarantee of future performance.

Service Provider

This Analysis may be provided as part of a financial plan being offered through LPL or a third-party registered investment adviser ("Service Provider"). However, the term "plan" or "planning," when used within this Analysis does not imply that a recommendation has been made to implement one or more financial plans or make a particular investment. Please refer to the financial planning agreement you signed for further information about the parties providing services.

This Analysis does not constitute a recommendation of any particular technique or investment, and may not contain general or specific recommendations for implementation. The results contained herein do not constitute an actual offer to buy, sell or recommend a particular investment or product. All investments are inherently risky. You are under no obligation to implement any recommendations that may be included within this Analysis. If you choose, you may implement this Analysis through a financial adviser, including one associated with LPL. By doing so, Service Provider may make a variety of products and services available. This may result in the payment of normal and customary commissions, advisory fees or other types of compensation to Service Provider. This compensation may be more or less depending on the product or service that representative recommends. To the extent that Service Provider recommends that you invest in products and services that will result in compensation being paid to Service Provider and its representatives, this presents a conflict of interest. For more information about conflicts of interest, please see LPL's Form ADV at www.lpl.com or Service Provider's Form ADV, as applicable.

The information contained in this Analysis is not written or intended as financial, tax or legal advice. The information provided herein may not be relied on for purposes of avoiding any federal tax penalties. You should consult your tax and/or legal advisors before implementing any transactions and/or strategies concerning your finances.

Monte Carlo

Disclaimer

(Continued)

Monte Carlo Analysis is a complex statistical method that charts the probability of certain financial outcomes at certain times in the future by generating many possible economic scenarios that could affect the performance of your investments. The Monte Carlo simulation uses at most 1000 scenarios to determine the probability of outcomes resulting from the asset allocation choices and underlying assumptions regarding rates of return and volatility of certain asset classes. Some scenarios assume favorable financial market returns, consistent with some of the best periods in investing history. Some scenarios assume unfavorable financial market returns, consistent with some of the worst periods in investing history. Most scenarios will fall somewhere in between. The outcomes presented using the Monte Carlo simulation represent only a few of the many possible outcomes. Since past performance and market conditions may not be repeated in the future, your investment goals may not be fulfilled by following advice that is based on the projections.

Tools such as the Monte Carlo simulation will yield different results with each use and over time depending on the variables inputted and the assumptions underlying the calculation. If this Analysis makes use of a Monte Carlo simulation, the term "Monte Carlo" will be included in the title. Simulation assumptions include the assumed rates of return and standard deviations of the portfolio model associated with each asset. The assumed rates of return are based on the historical rates of returns and standard deviations, for certain periods of time, for the benchmark indexes comprising the asset classes in the model portfolio. Since the market data used to generate these rates of return change over time your results will vary with each use over time.

IMPORTANT: The projections or other information generated by a Monte Carlo simulation regarding the likelihood of various investment outcomes are hypothetical in nature, do not reflect actual investment results and are not guarantees of future results.

LPL Financial Representatives offer access to Trust Services through The Private Trust Company N.A., an affiliate of LPL Financial.

This analysis must be reviewed in conjunction with the limitations and conditions disclosed in the Disclaimer page. Projections are based on assumptions provided by the financial professional, and are not guaranteed. Actual results will vary, perhaps to a significant degree. The projected reports are hypothetical in nature and for illustrative purposes only. Return assumptions do not reflect the deduction of any commissions, or fees or product charges that may apply to any particular investment. Deduction of such charges would result in a lower rate of return. Consult your tax and/or legal advisor before implementing any tax or legal strategies. Past performance is no guarantee of future results. The market for all securities is subject to fluctuation such that upon sale an investor may lose principal.

Securities and advisory services offered through LPL Financial (LPL), a registered investment advisor and broker-dealer (member FINRA/SIPC). Insurance products are offered through LPL or its licensed affiliates. To the extent you are receiving investment advice from a separately registered independent investment advisor that is not an LPL Financial affiliate, please note LPL Financial makes no representation with respect to such entity.

If your financial professional is located at a bank or credit union, please note that the bank/credit union **is not** registered as a broker-dealer or investment advisor. Registered representatives of LPL may also be employees of the bank/credit union. These products and services are being offered through LPL or its affiliates, which are separate entities from, and not affiliates of, the bank/credit union. Securities and insurance offered through LPL or its affiliates are:

Not Insured by FDIC/NCUA or Any Other Government Agency	Not Bank/Credit Union Guaranteed	Not Bank/Credit Union Deposits or Obligations	May lose value

Basics of Education Planning

Education planning is the process of creating a realistic strategy for funding the higher education costs of your children. It is important to create a plan that works along with other aspects of your comprehensive financial plan. The following is a list of items to consider when creating your education plan.

Total Amount You Want to Fund

Most people start with a goal of funding their children's entire education. However, this is not always possible given the specific situation of each family. You should choose a funding objective that is realistic and be flexible enough to change that goal as the situation warrants.

Remember that it is important to not commit too much money to education planning at the expense of under-funding other priorities like retirement planning. There are outside sources of help when funding college such as grants, scholarships, and loans. There is no such help for your retirement.

Type of Account(s) to Use

There are multiple types of accounts where you can save your money. Some offer significant tax benefits but possibly at the cost of higher expenses. Some offer lower expenses but potentially more taxes. Some accounts may be more advantageous if applying for financial aid for children.

While the most important action you can take is to actually save money, it is important to use the type of account most beneficial to you.

How Much To Save and How to Allocate

The amount you can save is of obvious importance when creating a plan but the proper allocation is often overlooked. Education often provides a shorter time frame to save as well as a very short timeframe for the actual event, unlike retirement for example. Therefore, it is important to use an allocation appropriate for shorter timeframes. While you can be aggressive with the allocation for young children, a more moderate allocation is generally warranted for teenagers since your timeframe is typically limited to 5 years or less. Do not overlook the importance of reviewing your allocation every few years, and making changes when appropriate.

This analysis must be reviewed in conjunction with the limitations and conditions disclosed in the Disclaimer page. Projections are based on assumptions provided by the advisor/representative, and are not guaranteed. Actual results will vary, perhaps to a significant degree. The projected reports are hypothetical in nature and for illustrative purposes only. Return assumptions do not reflect the deduction of any commissions. They will reflect any fees or product charges when entered by the advisor/ representative. Deduction of such charges would result in a lower rate of return. Consult your legal and/or tax advisor before implementing any tax or legal strategies.

Cost of Education Base Facts

Funding a child's education, either fully or partially, is considered a primary obligation by most parents. With education costs significantly outpacing inflation, the total cost of a college education can become burdensome if you don't start saving early.

For College for Lucas, you have defined that education begins in **2025**, lasts for **4 years (through 2028)**, and will have an annual cost of **\$50,000** in today's dollars. These costs are expected to grow at a rate of **4.00%** beginning **immediately**.

You can expect the first year of college to actually cost **\$58,493** when it begins, with a total cost of **\$248,389** by the time it ends.

SUMMARY

Education Occurs
2025 - 2028

Annual Costs (Today's \$)
\$50,000

Costs Grow at
4.00%

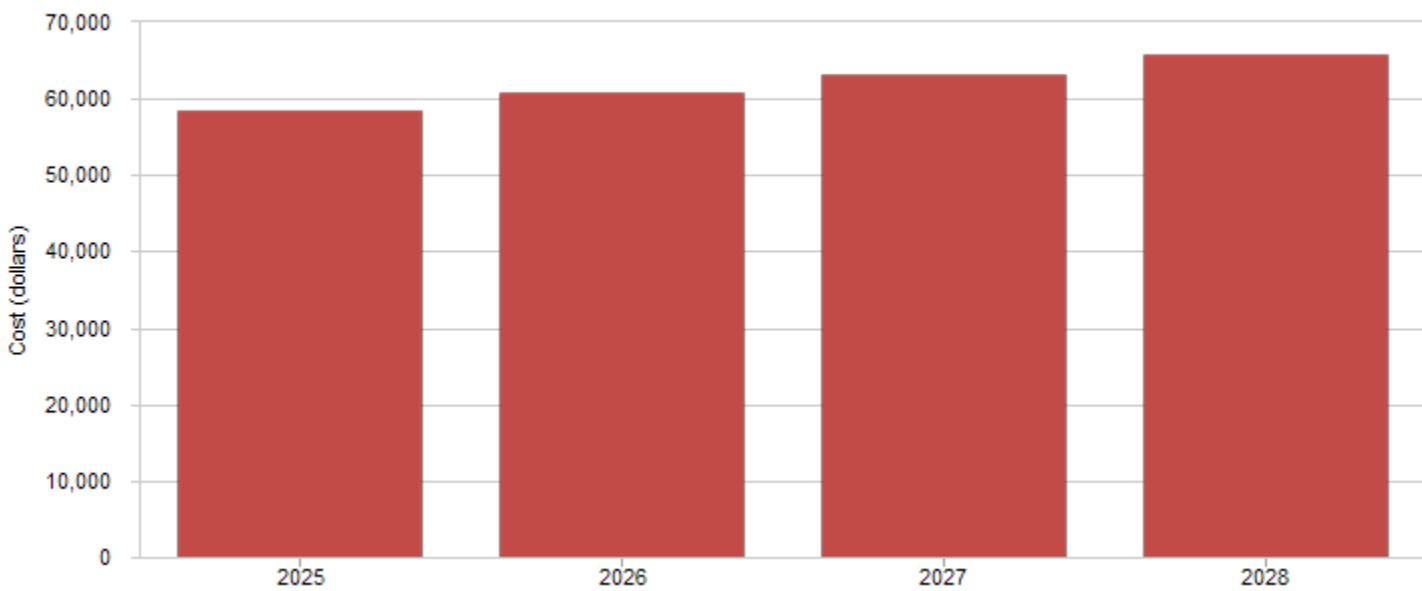

Annual Cost in 2025
\$58,493

Total 4 Year Cost
\$248,389

How Will Your Costs Grow?

The chart below illustrates the mounting costs of this education. You can expect an annual cost of **\$50,000** today to grow to **\$58,493** in **2025** and **\$65,797** in **2028**.

Projected Cost of College for Lucas

This analysis must be reviewed in conjunction with the limitations and conditions disclosed in the Disclaimer page. Projections are based on assumptions provided by the advisor/representative, and are not guaranteed. Actual results will vary, perhaps to a significant degree. The projected reports are hypothetical in nature and for illustrative purposes only. Return assumptions do not reflect the deduction of any commissions. They will reflect any fees or product charges when entered by the advisor/ representative. Deduction of such charges would result in a lower rate of return. Consult your legal and/or tax advisor before implementing any tax or legal strategies.

Cost of Education Base Facts

Funding a child's education, either fully or partially, is considered a primary obligation by most parents. With education costs significantly outpacing inflation, the total cost of a college education can become burdensome if you don't start saving early.

For College for Mary Beth, you have defined that education begins in **2028**, lasts for **4 years (through 2031)**, and will have an annual cost of **\$50,000** in today's dollars. These costs are expected to grow at a rate of **4.00%** beginning **immediately**.

You can expect the first year of college to actually cost **\$65,797** when it begins, with a total cost of **\$279,405** by the time it ends.

SUMMARY

Education Occurs
2028 - 2031

Annual Costs (Today's \$)
\$50,000

Costs Grow at
4.00%

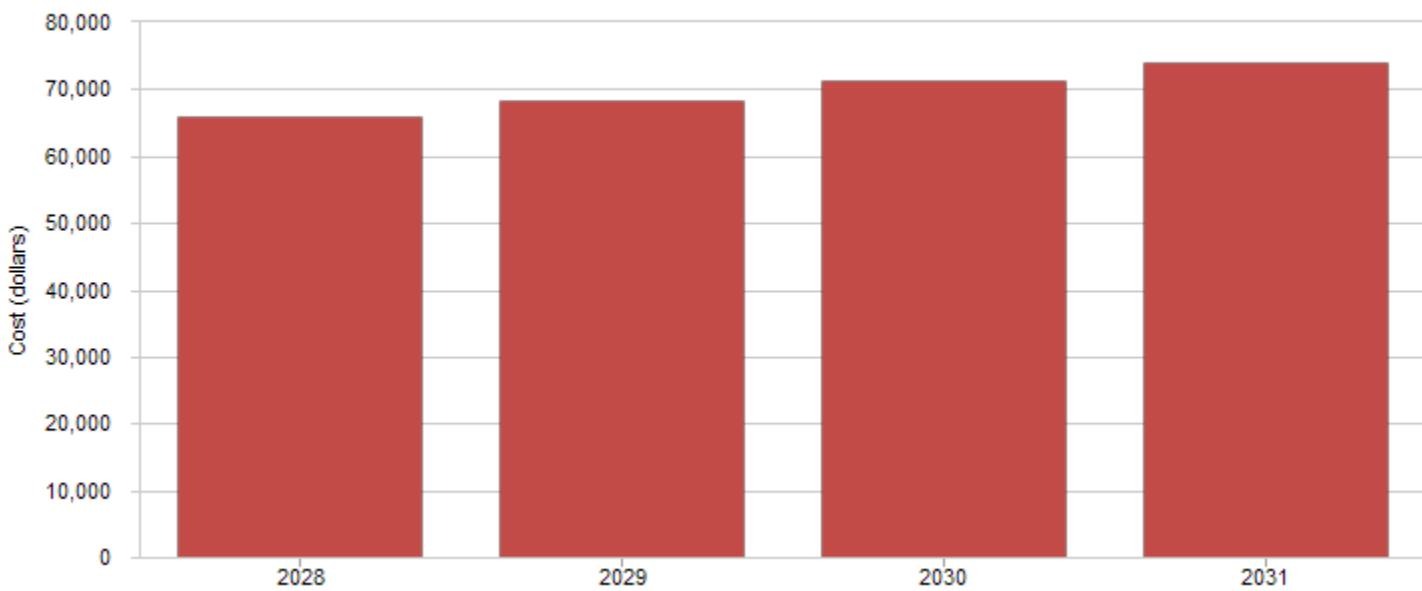

Annual Cost in 2028
\$65,797

Total 4 Year Cost
\$279,405

How Will Your Costs Grow?

The chart below illustrates the mounting costs of this education. You can expect an annual cost of **\$50,000** today to grow to **\$65,797** in **2028** and **\$74,013** in **2031**.

Projected Cost of College for Mary Beth

This analysis must be reviewed in conjunction with the limitations and conditions disclosed in the Disclaimer page. Projections are based on assumptions provided by the advisor/representative, and are not guaranteed. Actual results will vary, perhaps to a significant degree. The projected reports are hypothetical in nature and for illustrative purposes only. Return assumptions do not reflect the deduction of any commissions. They will reflect any fees or product charges when entered by the advisor/ representative. Deduction of such charges would result in a lower rate of return. Consult your legal and/or tax advisor before implementing any tax or legal strategies.

Funding Your Education Base Facts

This report shows where you are with respect to your education funding needs.

You currently have **\$54,999** of dedicated funds available for **College for Lucas** expense. Planned savings and assumed growth would result in a total of **\$68,532** of dedicated funds available for the education goal. These funds are used against a total **4 year** cost of **\$248,389** resulting in a **\$179,857** shortfall of dedicated assets. Non-dedicated assets are assumed to fund the remaining goal shortfall.

The projected **shortfall** from dedicated assets towards **College for Lucas** expense is **\$179,857**, or **72%** underfunded. Non-dedicated assets are assumed to fund the remaining goal shortfall.

SUMMARY

Total 4 Year Cost

Will There Be Enough?

The chart below illustrates your available dedicated funding for this education goal. Your dedicated assets provide a funding level of **\$68,532** towards the goal. Non-dedicated assets are used to fund the remaining **\$179,857**.

Savings and Withdrawals for College for Lucas

This analysis must be reviewed in conjunction with the limitations and conditions disclosed in the Disclaimer page. Projections are based on assumptions provided by the advisor/representative, and are not guaranteed. Actual results will vary, perhaps to a significant degree. The projected reports are hypothetical in nature and for illustrative purposes only. Return assumptions do not reflect the deduction of any commissions. They will reflect any fees or product charges when entered by the advisor/ representative. Deduction of such charges would result in a lower rate of return. Consult your legal and/or tax advisor before implementing any tax or legal strategies.

Funding Your Education Base Facts

This report shows where you are with respect to your education funding needs.

You currently have **\$124,403** of dedicated funds available for **College for Mary Beth** expense. Planned savings and assumed growth would result in a total of **\$181,938** of dedicated funds available for the education goal. These funds are used against a total **4 year** cost of **\$279,405** resulting in a **\$97,467** shortfall of dedicated assets. Non-dedicated assets are assumed to fund the remaining goal shortfall.

The projected **shortfall** from dedicated assets towards **College for Mary Beth** expense is **\$97,467**, or **35%** underfunded. Non-dedicated assets are assumed to fund the remaining goal shortfall.

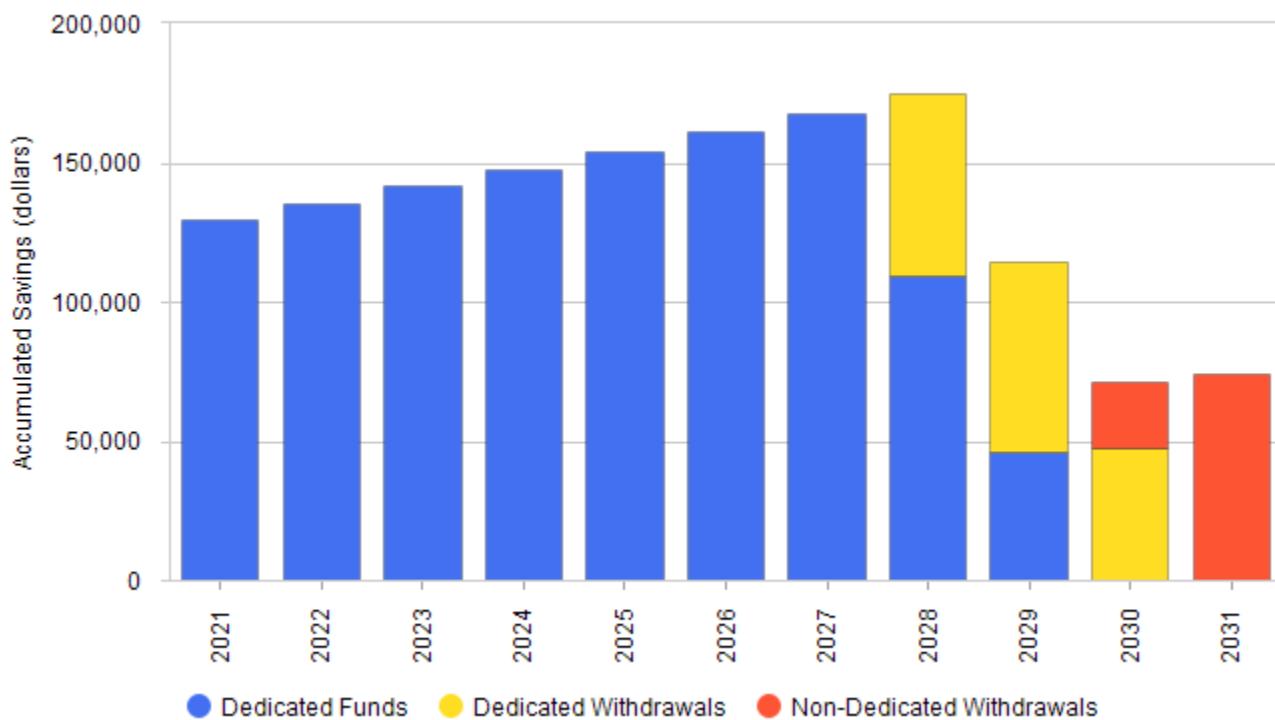

SUMMARY

Total 4 Year Cost
\$279,405
Current Funding
\$124,403 (Dedicated)
Total Funding
\$181,938 (Dedicated)
\$97,467 (Non-Dedicated)
Shortfall

35% (Non-Dedicated)

Will There Be Enough?

The chart below illustrates your available dedicated funding for this education goal. Your dedicated assets provide a funding level of **\$181,938** towards the goal. Non-dedicated assets are used to fund the remaining **\$97,467**.

Savings and Withdrawals for College for Mary Beth

This analysis must be reviewed in conjunction with the limitations and conditions disclosed in the Disclaimer page. Projections are based on assumptions provided by the advisor/representative, and are not guaranteed. Actual results will vary, perhaps to a significant degree. The projected reports are hypothetical in nature and for illustrative purposes only. Return assumptions do not reflect the deduction of any commissions. They will reflect any fees or product charges when entered by the advisor/ representative. Deduction of such charges would result in a lower rate of return. Consult your legal and/or tax advisor before implementing any tax or legal strategies.

Options for Meeting Education Needs

Based upon the assumed cost, existing funds, and future savings for **College for Lucas**, your education goal is not projected to be fully funded with dedicated assets. It is important to review your educational funding needs now, and implement any necessary changes. There are several options which, by themselves or in combination with each other, may help you to achieve your education funding goal. They include:

Save More Each Month

By examining your current budget and expenditures, you may be able to make changes that allow you to increase the amount you save each month for future education costs.

To cover your funding shortfall solely from dedicated assets by saving more each month, you would need to save an additional **\$1,833 per month** (or **\$21,997 per year**) through **2027**. This solution assumes that these new funds will grow at a rate of **5.03%**.

SUMMARY

Increase Savings by
\$1,833 (monthly)
\$21,997 (annually)

Total Cost of Education
\$248,389

Total Funding
\$248,389

Percent Funded
100%

Set Aside More Now

One option for making up the shortfall is to set aside an additional lump sum today.

To make up your funding shortfall solely from dedicated assets by increasing the lump sum available today, you would need to put aside **\$133,538** in addition to the **\$54,999** currently available, for a total of **\$188,537**. This solution assumes that these new funds will grow at a rate of **5.03%**.

SUMMARY

Increase Funds by
\$133,538 to a total of **\$188,537**

Total Cost of Education
\$248,389

Total Funding
\$248,389

Percent Funded
100%

Reduce Costs

You may consider reducing the actual cost of the goal. The student might qualify for scholarships, or could attend a less expensive educational institution. In-state schools typically have lower tuition than comparable out-of-state schools.

To fully fund the goal solely from dedicated assets by reducing the expense, the annual cost would need to be reduced by **\$35,367** to **\$14,633** per year. This solution assumes that your education cost will grow at a rate of **4.00%** each year.

SUMMARY

Reduce Annual Cost by
\$35,367 to a total of **\$14,633**

New Cost of Education
\$72,692

Total Funding
\$72,692

Percent Funded
100%

This analysis must be reviewed in conjunction with the limitations and conditions disclosed in the Disclaimer page. Projections are based on assumptions provided by the advisor/representative, and are not guaranteed. Actual results will vary, perhaps to a significant degree. The projected reports are hypothetical in nature and for illustrative purposes only. Return assumptions do not reflect the deduction of any commissions. They will reflect any fees or product charges when entered by the advisor/ representative. Deduction of such charges would result in a lower rate of return. Consult your legal and/or tax advisor before implementing any tax or legal strategies.

Options for Meeting Education Needs

Based upon the assumed cost, existing funds, and future savings for **College for Mary Beth**, your education goal is not projected to be fully funded with dedicated assets. It is important to review your educational funding needs now, and implement any necessary changes. There are several options which, by themselves or in combination with each other, may help you to achieve your education funding goal. They include:

Save More Each Month

By examining your current budget and expenditures, you may be able to make changes that allow you to increase the amount you save each month for future education costs.

To cover your funding shortfall solely from dedicated assets by saving more each month, you would need to save an additional **\$621 per month** (or **\$7,457 per year**) through **2030**. This solution assumes that these new funds will grow at a rate of **5.03%**.

SUMMARY

Increase Savings by
\$621 (monthly)
\$7,457 (annually)

Total Cost of Education
\$279,405
